# Health

SimbaQuartz helped for the surgery of Baljinder Kaur - A resident of the village Tangra where we are located. Baljinder Kaur comes from a needy family and requires an emergency operation of her stomach. The family directly approached our office. SimbaQuartz helped the family with the partial payment of funds.

Donated for a medical case of severe aplastic anemia for a 12 years old boy - Manav Manav is suffering from a severe health disorder called aplastic anemia and by Bone Marrow Transplant, he can be cured. It is a complicated and expensive surgical procedure which his family cannot afford on their own. SimbaQuartz helped the family with the partial payment of funds.

Monthly Groceries to Shinda Singh from Rayya, Amritsar - Shinda Singh is an aged person and does not have a regular earning source. SimbaQuartz often helps his family with groceries and house rent payment. In the month of August SimbaQuartz helped the family with monthly groceries.

SimbaQuartz has also helped Shinda Singh and his wife to get eye check-up this month. In this concern, we arranged an eye check-up for Shinda Singh & his wife from a reputed eye specialist. During this consultation to the eye specialist, we got to know that Shinda Singh can see from his one eye only as his left eye does not work and even incurable at all. On the other side, Shinda Singh's wife had been diagnosed with cataracts in both eyes and recommended for eye surgery as a permanent solution. On learning about the condition and also treatment, we immediately decided to get Shinda Singh's wife the recommended surgery. Though due to COVID 19, the hospital has delayed the treatment.

# Education

a. SimbaQuartz gives the utmost importance to education and support students who are in need. Following this mission, we paid with a partial fee of Ms. Kaur, a resident in Bathinda for her admission in the first year of graduation.

b. Ram Singh - a young boy aged 12 comes to SimbaQuartz daily as he cannot afford to buy a mobile in this lockdown to continue his studies. By using our devices and resources and air-conditioned space, it's easy for this young intelligent champ to study comfortably. Our team also clears his study related doubts if any.

# Skill Development

SimbaQuartz is providing free computer skill development training to Upasana & Gurpreet Kaur teenagers from Village Tangra. Both the girls have completed their basic computer course at SimbaQuartz and now are learning web development technology. Under skill development, we want to empower learners with requisite skills and make them employable. This month we bought separate computer systems for both the girls.

# Helped a family getting their house roof repaired

A family-based out of Village Muchhal, Amritsar, had been struggling to get their house roof repaired. Ram Singh, studying in class ninth, lives only with his grandmother approaching SimbaQuartz. He said that his house roof is in really poor shape and during monsoon, they have to face severe water leakage. We took up the responsibility to help the family in getting the roof repaired.

## Theatre Classes & Evening School

In our village – Tangra, people do not have many opportunities. There are youngsters and kids who have a great interest in art, acting, and theatre. To help them pursue their interest and further convert this interest into a career, we have started Free theatre classes in which students are trained in acting by an art teacher – Mr. Vishal Sharma and his assistant Snehal paid a monthly salary by SimbaQuartz.

Magic Pencil - ( a must watch ) is our first short movie project. (Do watch, you will love it for sure) Besides Theatre Classes, SimbaQuartz also runs an evening school in which nearly 60 kids from nearby areas are studying at present. The evening school had previously been run by Smiles Care, but now, is taken care of by SimbaQuartz. We are supplying stationery and books to the kids currently at home due to pandemic. We also allow students to come and clear their study-related doubts if any. We also consult them over the phone.
